

Erasmus+ project: Qualification, Validation and Certification of Maintenance Personnel

GoTo meeting, 19th August 2019

Present:

Guðmundur Jón Bjarnason
Ingemar Andreason Torsten Ekström
Damjan Maletič
István Páll
Jaakko Tennilä
Ilkka Palsola

Absent:

Maria Malmrud
Mikaela Malmrud
Jan Skarka
József Csiba
Tomáš Hladík
Zsolt Nyeste

1) **BoK update from Antoine, where subprocesses are also addressed**

Antoine has recently sent out a new BoK Excel sheet where the EN17007 subprocesses are addressed, they were not addressed in former BoK versions. This will hopefully help us to sync our work with the BoK work as our framework uses the EN 17007 subprocesses. In a way we can say we now have at least three perspectives on the domain we are mapping into our framework:

- EN17007 processes and subprocesses
- EN15628
- “Subjects” from the BoK
 - Proposal: We could possibly be mapped indirectly in our framework as “keytext”
 - We might also want to rename the BoK “subjects” as “BoK headlines”

2) **Discussions about next steps**

How can we best take our work until now further and get closer to involve “the industry” asking them to start to create questions based on our new framework and with “pointers” to the BoK?

To recall: Our basic approach has been to use EN15628, but it lacks better headings / framework and it lacks some topics. To overcome what is lacking we will use EN17007 for headings / framework and to add topics we feel are missing. Also, we will have the BoK “headlines” as “additional perspective”. Based on this we will create questions. Do we want to change this approach? ... and then how? We could do some pilot(s) and try out different ways.

It is important for the project to have a well defined roadmap.

3) The qualifications scheme - Work done since last meeting

From last meeting:

- *The proposal is to continue working on the "Master" until we only have "green cells", not yellow and orange ones, while doing that we can suggest new competencies with blue highlight. Add a comment to each cell that will be changed. To keep in mind: We already have all the C's from EN15628 in our new framework as "green". This is to be done latest August 7th:*

- *Guðmundur will take lines 2 - 39 (to end of PRV) **
- *István 40 - 77 (from COR to end of ACT) **
- *Tomas 78 - 109 (from IMP to end of BUD) **
- *Torsten 110 - 151 (DOC to end og MRQ) **
- *Damjan 152 - 188 (OPT to end of TOL and end of list) **

** the line numbers have changed*

** it is also recommended that while working with the yellow and orange cells, each and everyone will do some exercise fitting Essential knowledge and Minimum skills to a selected competence*

4) Use of standards

Not discussed at this meeting.

5) Next meeting, action list and other items

We have other items that needs to be addressed, but they were not addressed now.
