

Erasmus+ project: Qualification, Validation and Certification of Maintenance Personnel

Goto meeting, 14th October 2019

Present:

Guðmundur Jón Bjarnason
Torsten Ekström
Ilkka Palsola
Zsolt Nyeste
Tomáš Hladík
Jan Skarka
Silvia Stepanova
Ingemar Andreason
Mikaela Malmrud
István Páll
Damjan Maletič
Jaakko Tennilä

Absent:

Maria Malmrud
József Csiba

1) Questions creation - first steps in the light of minutes from our last meeting

The following was noted:

- We will use the approach decided upon at our last meeting
- There are already some documents, from Ingemar, available how to go about this. Torsten showed some of these documents. He will send the documents to the group
- We will export all available questions from ValidMaint (about 3000 multiple choice questions for technicians in 10 languages, it differs between questions, still all in English) and other sources
- All questions in English and “own” language
- We will start with a pilot project, focusing on engineers/supervisor level. We could focus on B1 to begin with
- Ingemar and Torsten will get this pilot project started and show us some first results at our next meeting, or even earlier via e-mail

2) Qualification framework

The following was noted:

- Guðmundur will work on suggestion how EN15628 and BoK subjects can be merged

3) Next meeting, action list and other items

Next meeting is scheduled on November 18th. Possibly we will have another meeting in between, Torsten will make a suggestion. Following meetings will be on the same hours as this one, 15:00 CET.
