

# Erasmus+ project: Qualification, Validation and Certification of Maintenance Personnel

Goto meeting, 16<sup>th</sup> December 2019

## **Present:**

Guðmundur Jón Bjarnason  
Torsten Ekström  
Ilkka Palsola  
Zsolt Nyeste  
Ingemar Andreason  
István Páll  
Jaakko Tennilä  
Damjan Maletič  
Tomáš Hladík

## **Absent:**

Maria Malmrud  
József Csiba  
Mikaela Malmrud  
Jan Skarka  
Silvia Stepanova

### 1) **Framework proposal from Finland, based on EN17007**

The proposal is based on what was decided to do in January 2019 and the result of the work that has been going on throughout the year. The result is based on EN17007 and EN15628.

The following was noted:

- István commented that he liked the proposal and believes it will guide us
- Gudmundur agrees with István
- Ingemar stresses the part that we should start creating questions
- Jaakko explained that this result, contained in 3 Excel sheets for manager, engineers/supervisors, technicians, can be used as a framework for creating questions.
- Ilkka explained that phrasing in the Excel sheets can be changed if needed to make them easier to read
- Torsten went through some slides explaining the big picture of the project, where some of the EN17007 “chapters” have been regrouped in chapters and some chapters/subchapters added, resulting in a new structure.
  - Jaakko pointed out that this is not in line with what the team has earlier decided and is written down in minutes from meetings. He reasoned that the proposal from Finland contains the framework needed for continuing our work. Zsolt agreed with that.
  - Jaakko also pointed out that EN15628 is the current standard for maintenance professionals certification and that we must respect that within our project

- Where should we go from here? We must select which way to follow, the proposal presented by Jaakko or the approach introduced by Torsten
  - Asked, Torsten answered that he does not see it as an option to continue using the framework Jaakko presented. Still, he believes that a third solution can be found, where some part of EN15628 will play part.
  - It was decided that Ilkka and Torsten will try to create a common plan/presentation/proposal for the project, to be sent out early next year

## **2) Next meeting, action list and other items**

Action items from last meeting, pilot questions, were not completed.

Next meeting on planned January 20th.
